SWISS LEAGUE MAKES MOVE TO KEEP RAILROADS OFF.

More Than 100,000 Signatures Obtained to Petition Protesting to the Federal Council Against Invasion by Tracks.

Berne, Switzerland.—More than 100,000 signatures have been attached in Switzerland to the petition that the Swiss league has prepared to present to the federal council. The first lines in the petition read:

"The high summits of our Alps are the ideal possessions of the whole Swiss people and the symbol of Swiss freedom. They are not for sale."

The petition is a protest against the threatened assaults which, many thousands of foreign visitors to Switzerland in the tourist industry propose to make upon the scenery of the high Alps.

It is in behalf of the hundreds of thousands of foreign visitors to Switzerland that various construction companies are trying to get permission from parliament to build mountain railroads and hotels and residences in the Alps.

The project of greatest importance, the one which is exciting the bitterest opposition, is the proposed tunneling of the Matterhorn for a line to be part railroad and part elevator.

It is proposed to convert the summit of the wonderful mountain into a series of grottoes with windows and balconies, where the tourist may smoke or sip his tea and enjoy the panorama of the Alps under conditions of warmth and comfort.

Another project that the Swiss are opposing with almost equal vigor is a curious scheme relating to the Aletsch glacier, the largest glacier, not only of the Alps, but of the whole of Europe.

It moves down its long valley to the Rhone river, and its ice covers an area of nearly 10 square miles. It is a curious fact that the largest glacier of Europe moves down the southern slope of the mountain facing the sun.

The proposition is to lay down on the virgin snow of the Aletsch glacier a kind of sledge railroad, which shall traverse the whole length of that marvelous solitude.

The Swiss league was formed to work for the preservation of Swiss scenery, and it is utterly opposed to the invasion of the Alps by an engineering works above the snow line. It has asked the moral support of all the Alpine clubs of Europe, and none has responded more heartily than the Alpine club of London, which at a large meeting has endorsed the protest of the Swiss league.

Sir Martin Conway, who presided, said that both the Matterhorn and the Aletsch glacier project ought to be defeated, and all British mountaineers should enter the heartiest possible protest against them.

The speakers regarded the policy of no railroad above the snow line as sound and practical, and a letter was read from Mr. Whymper, who headed the first party to ascend the Matterhorn, in which he said that a railroad up that mountain would be injurious to the guides of the Zermatt valley and to those of the Val Tournanche.

RAVEN LOCKS TURN YELLOW.

Belleville (Ill.) Man Used "Tonic" Prescribed by a Friend.

Belleville, Ill.—Shelly Sherr of Belleville is natural born brunette, but he is rapidly becoming an involuntary and reluctant blonde. He took the advice of a false friend and his change of tint is the result.

Shelly's raven locks were the pride of his life. They seemed to him not long ago that they needed a tonic, and he spoke about it to a man he thought he could trust.

"The thing your hair needs," he said, "is peroxide of hydrogen."

When Shelly called for peroxide the look the druggist gave him made him want to fight, but he went home and bathed his hair according to directions and watched for the results. They came. His hair began to fade. In a few days it looked like burlap, then like straw that had been lying out in the lot all winter, and then like a little of both. It is now in the variegated stage, and getting worse every minute, and there is no way to head it off until it has run its natural course.

Obtained Curious Manuscripts. Prof. David Eugene Smith is having many interesting, unusual and valuable experiences in his travels through the orient. He reports that the Buddhist priests have displayed much interest in his search for mathematical material among the Burmese, and that he has obtained from them a considerable number of curious manuscripts. Some valuable casts of old numerical inscriptions secured from the Calcutta museum will be added to Prof. Smith's large collection.

HER GOOD FORTUNE.

After Years Spent in Vain Effort.

Mrs. Mary E. H. Rouse, of Cambridge, N. Y., says: "Five years ago I had a bad fall and it affected my kidneys. Severe pains in my back and hips became constant, and sharp twinges followed any exertion. The kidney secretions were badly discolored. I lost flesh and grew too weak to work. Though constantly using medicine I despaired of being cured until I began taking Doan's Kidney Pills. Then relief came quickly, and in a short time I was completely cured. I am now in excellent health."

Sunday School Lessons for the World. A power greater than that of kings seems to have been wielded by the little group of thoughtful men who gathered at the Fenway residence of W. N. Hartshorn to select the lessons for the Sunday schools of the world, says the Boston Herald. Every year they gather to make this choice, and when a decision has been reached the lessons are handed out to the printers and by them literally scattered over the planet. The word thus goes forth not in one but in scores of languages. Europe and Africa, east and west, north and south, get these helps to religious study in the vernacular. There is a supply for Hawaii, Japan and the islands of the sea. For India alone 40 dialects have to be provided for. Some 500,000,000 Sunday school leaflets are thus distributed every year.

Where It Belongs.

"Excuse me," said the playwright to his friend who was hissing the piece, "do you think it is good form to hiss my show when I gave you the ticket that admitted you?"

"Certainly," resentfully replied the friend. "If I'd bought a ticket I would have contented myself by going out side and swearing at myself."—Success Magazine.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface.

We will give one hundred dollars for any case of deafness caused by catarrh that cannot be cured by Halls Catarrh Cure. Send for circular free.

appeal to the Well-Informed in every walk of life and are essential to permanent success and creditable standing. Accordingly, it is not claimed that Syrup of Figs and Elixir of Senna is the only remedy of known value, but one of many reasons why it is the best of personal and family laxatives is the fact that it cleanses, sweetens and relieves the internal organs on which it acts without any debilitating after effects and without having to increase the quantity from time to time.

It acts pleasantly and naturally and truly as a laxative, and its component parts are known to and approved by physicians, as it is free from all objectionable substances. To get its beneficial effects always purchase the genuine—manufactured by the California Fig Syrup Co., only, and for sale by all leading druggists.
